SUNDAY JUNE 6

All Dog Rescue, Inc. is sponsoring this seminar at Regis College in Weston, MA

If you have a dog, work with dogs, or frequently encounter dogs, this seminar will help you understand just what it is man's best friend is trying to communicate.

- Canine Body Language
- Canine Learning Theory
- Setting Up A Foster Home
- Temperament Evaluations
- Risk Assessment (including puppies)

Sarah Kalnajs begins with an in-depth exploration of canine body language and how dogs learn and perceive the world around them. She will address early identification of abnormal adolescent behavior focusing on how puppies develop and learn, and how we can distinguish puppy antics from existing or budding behavior problems.

For the rescue community and those working with rescued dogs Sarah will provide insight on temperament assessments and walks us through her evaluation system which was designed to predict (to the best of our ability) the future behavior of a dog and potential problem areas which may affect placement. Sarah will discuss how to create a successful foster home and how to handle the many hills and valleys that come with welcoming displaced dogs into your home.
